Hello 2026

Innovation Starts Now

Hi N. KARL-AUGUSTT,

A new year is here and the pace of innovation isn't slowing down. January opens with bold signals of what's next: **smarter AI, agentic systems, quantum breakthroughs, and data-driven decisions** reshaping every industry.

From IBM's vision for the future of software to AI transforming how football is played and analyzed, 2026 is already taking shape. This month's edition brings you the trends, insights, and conversations that will define tomorrow's leaders. Let's start the year informed, inspired, and a step ahead.
